

Doug

Thanks for keeping Scrum Simple! By that I mean you first presented the basics and then, as more complex questions arose, you related them back to the basics.

I truly enjoyed this course!

John

Doug is knowledgeable and lively in his presentations. He held my interest.

Good Job! Keep it up!

Engaged conversations and experiences

- More techniques on dealing with upper management and resistance to SCRUM would be helpful.

AHMED

* Great work

* I'd like to see more exercises that you already had, or know about, like

the 5 Stake holders situation and how it folded.

this kind've stories project. more of real-example (situation) that ring more with US !!

See you, maybe, in CSP interview or your CSPO later this month.

Doug,

As a junior SQA this class was great! Maybe for others who were further along the Agile path it seemed too basic.

I look forward to more Agile interaction. More "role playing" to learn the questions to ask would be helpful

Thanks
your Agile junkie
N8 ~~DA~~

GREAT CLASS.

Doug's REAL World EXPERIENCES WERE
RELEVANT & HELPFUL.

Highly Recommend this Instructor & Course

Thanks!

GREAT JOB! I WISH THERE WAS A CLASS/BOOK THAT ADDRESSED ISSUES/CHALLENGES
SCRUM MASTERS SEE 6 ~~MONTH~~ MONTHS, 1 YR INTO SCRUM. ONCE A SCRUM MASTER CAN
LOOK OUTWARDS FROM THE TEAM, HOW DO YOU TACKLE ORG. ISSUES.

THANKS!

Ryan Vick

There were a few tangents we visited multiple times in order for individuals to get the concepts.

The course time was too short. Expand the class to be 3 days.

Recommendations for external resources would also be nice. Don't be ashamed to plug something if it poses value to an individual.

Certified ScrumMaster training

- ① I came into class with 0 knowledge of XP, Agile, Scrum, and other formalized terminology for methodologies/frameworks. Having some exposure to these would have helped me, not sure if this was a pre req on the class.
- ② After 1st day, kind of confused, second day helped greatly.

Things in the class I liked hearing ...

I like Scrum because...

... I don't like planning everything up front.

... I don't like estimating hours.

... I don't like tools.

because I think up front planning, estimating hours, and tools are a waste of time.

CLASS was very interactive and not boring.
I would like to have some templates and
cheat sheets for quick glance and refresh
memory.

Doug,

GREAT COURSE, I AM LOOKING FORWARD TO
YOUR BOOK. I LEARNED A LOT AND AM
EXCITED TO GET GOING.

ONE THING THAT WOULD HELP IS A SUMMARY
OF TOPICS FROM TIME TO TIME DURING
THE DAY.

AGAIN, GREAT CLASS.
