

Thank You!

I ACCOMPLISHED THE OBJECTIVES I
SET AND HAD FUN DOING IT. I
WOULD RECOMMEND YOUR CLASS.

Joan

Deng did a great job introducing us to the SCRUM 'pathway'. I learned a lot and hope to use it in my work-life soon.

As a CSM course attendee

I want to congratulate and
thank Douglas for a really cool
course full of insights and advice
so that he keeps on ^{/spreading} bringing
agile/scrum awareness to the
SW Dev. community

Done:

- after ∞ training courses.
- better customer satisfaction if the
scrum exercise can be 2 sprints to
better feel the benefits of scrum.

Thanks !!

Doug -

At first class raised many Qs.
Upon reflection they were mostly in
the arena of applying scrum.

After a couple of exercises
it made more sense. Probably
due to my q's getting more
specific or your answers ~~be~~
ability to understand my language/
use of terms.

Thank you.

Doug,

Thank you for the training!!

The exercises were very helpful.

There is a lot of materials to cover in 2 days. I would like to add an extra day to do more hands on exercise.

Thank you again!

Lina
