Nice job! I have several useful
tools for working with Scrum framework.
I like the focus on people and the
way we work.

Would like more hands-on opportunity for all to be the SM in simulation. However this may require 3-days.

Comments:

Excellent Course. The hands-on sprint exercise was the best part. It really brought the concepts together. It would have been nice to go over the Scrum in a nutshell article. Overall I would definitely recommend this course to my peers.
